

AQUACAP

Pharma & Beverages Closures

About us

AQUACAP is proudly a leading Egyptian company in the packaging industry.

Established in 1998, AQUACAP started its journey by locally trading plastic closures. Since then, AQUACAP has developed its services to manufacture plastic closures, aluminum closures, and metal lug caps and export these products all over the globe.

Currently, AQUACAP has three different premises to manufacture all of its products. AQUACAP now provides the medical, food, cosmetics, and detergent industries with top tier closures.

Aspiring to ensure the satisfaction of all of our clients, AQUACAP provides its worldwide customers with highly functional, attractive, and reliable closures that enables them to build their unique brands, protect the integrity of their products, and guarantee the safety of their consumers.

At AQUACAP,

We are committed to offering innovative packaging solutions that meet the unique needs of your products. Our PET bottles are expertly crafted for olive oil, providing superior protection and presentation. Available in crystal clear and opaque olive green options, these bottles safeguard your olive oil from light exposure, preserving its quality and flavor.

What sets our olive oil bottles apart is our innovative cap design, offering options in both plastic and aluminum, complete with an integrated pourer. Previously, this feature was exclusive to glass bottles, but our company has developed a breakthrough solution, allowing you to enjoy the convenience and functionality of a pourer with the lightweight and durable benefits of PET.

We also provide PET jars that are perfect for cosmetic products and food items such as nuts. These jars are designed to be both practical and aesthetically pleasing, ensuring your products are well-protected and displayed beautifully.
